## SOFTWARE ENGINEER

I am a software engineer with 4+ years of full-stack experience using React, Angular, Spring Boot and Node.js technologies. By working on corporate and freelance projects, I have gained experience in software architecture design and real-time data flow. By adopting SOLID principles and Clean Code approaches, I develop scalable and sustainable software solutions.

## TECHNICAL SKILLS

- **Frontend:** React, Angular, TypeScript, JavaScript (ES6+), jQuery, TailwindCSS, Bootstrap
- **Backend:** Node.js (Express), Spring Boot
- **Databases:** PostgreSQL, MongoDB
- **Infrastructure & Tools:** Redis, Docker, Git, SCORM, Coolify
- **Architecture:** Microservices, Modular Monolith, Layered Architecture

## WORK EXPERIENCE

**Sebit Information & Education Technologies Inc.**

**10/2022 - Present**

### Software Engineer

- Developed responsive Angular (TypeScript) web applications integrated with RESTful APIs based on UI/UX designs.
- Developed interactive e-learning content using VanillaJS, jQuery and the company's internal framework and implemented SCORM package integrations for LMS compatibility.
- Performed debugging, performance optimization and stability improvements on the company's internal framework.
- Developed automation scripts and CLI tools using Node.js for data migration, content validation and workflow automation.
- Evaluated third-party libraries suitable for project requirements, implemented their integrations and developed custom solutions when necessary.

### Projects & Freelance Work

**03/2022 - Present**

### Software Engineer

- **Task Management & Appointment System (Spring Boot, Angular/React):** Developed a full-stack system including role-based access control (RBAC), an admin panel and integrated task/appointment management modules.
- **Utility Applications (.NET Core, WinForms):** Developed desktop tools that automate bulk email sending, product tracking and file transfer processes for staging environments.
- **Freelance CMS Platforms (React, Express.js, MongoDB, Firebase):** Developed and deployed CMS platforms including identity management, media processing and a dynamic content editor for blogs, portfolios and informational websites.

## EDUCATION

**Yildiz Technical University**

**2017 - 2022**

- B.Sc. in Geomatic Engineering

## CERTIFICATIONS

- Teaching Assistant, Advanced Angular Course
- Advanced Angular Development
- Frontend Acceleration Program

**BTK Akademi - 2024**

**BTK Akademi - 2024**

**Patika.dev - 2022**
